Medical Certification

Emergency Medical Technicians respond to the scenes of medical emergencies and traumas. They administer CPR and other Basic Life Support skills. In crews of two or more, they lift, move and carry patients, often up and down stairs. They also bend, kneel and work in confined spaces.

To Be Completed By Physician:

I, _____, a licensed Physician, hereby state that
Physician Name

I have examined _____, an applicant to the
Applicant Name
Teaneck Volunteer Ambulance Corps. I find no reason why he/she should not be able to perform the tasks involved in working as an EMT, as described above.
